

Road to Logistics is a Clean Sheet Training Provider

This means we will:

1. Help to create social change by opening up our training and support opportunities to people with convictions
2. Commit to having a fair process in place for accepting people with convictions
3. Commit to seeing people as people first, assessing them based on their own individual merit

Clean Sheet is a registered charity with one simple purpose – to offer people with convictions the hope of a better future by finding sustainable employment.
